

Focus Launch

Have you been tasked with a rapid implementation of ServiceNow? Or are you looking to understand what similar companies have done during theirs?

Designed using the latest ServiceNow development standards, industry best practices and learnings from over 400 successful projects, Focus Launch captures our customer's most commonly requested Service Management system changes and bundles them into an easy to use, opt in / opt out template that can be applied directly to your instance of ServiceNow.

Focus Launch empowers your organisation to take advantage of the experience of others, yet remains flexible enough to allow you to choose only the system configuration changes that you feel are right for you. Utilising this approach will help you radically reduce your implementation time frame and cost.

Benefits

-  Radically reduce ServiceNow deployment time
-  Lower implementation risks and costs
-  Increase customer satisfaction
-  Launch your project with confidence
-  Work with a Certified ServiceNow Gold partner
