

# Focus Swift

Focus Swift is a unique implementation methodology developed specifically to offer customers a fixed price, low-risk, rapid deployment of ServiceNow Express. Within days of your initial engagement you will be up and running live on your new ServiceNow express system.

Focus Swift can be used by all organisations interested in implementing ServiceNow Express regardless of their business size or complexity of their requirements.

Choose from one of the three Focus Swift implementation options (Bronze, Silver or Gold) or tailor them to a unique implementation plan, either way our ServiceNow Express experts will guide you to a successful project go-live, typically in a matter of days.

## Benefits:

-  Rapid deployment, be live in days
-  Three fixed price implementation packages
-  Mitigate risk
-  Work with a Gold Status ServiceNow partner
-  Perfect starting point of ServiceNow Journey
